

DCSM 2020

6th URV Doctoral Workshop in Computer Science and Mathematics

Aims and goals

This workshop is organized by the **Doctoral Program on Computer Science and Mathematics of Security**, with the aim of promoting the dissemination of ideas, methods and results that are developed in the Doctoral Thesis of the students in this program.

PhD students are welcome to send manuscripts describing their current research.

The images and the latex source must be sent by email to dcsm@urv.cat. Send a ZIP file with all the font files in Latex, including figures. The name of the file must be the first surname of the PhD student.

Selection process

Accepted papers will be selected for oral or poster presentations, and will be published in the conference proceedings.
